

## Press Release

# Eric Plaquet appointed President & CEO of GIREVE

Paris, 1<sup>st</sup> September, 2020 – Eric Plaquet has been appointed President & CEO of GIREVE, a leading interoperability platform for e-mobility roaming in Europe. Eric takes over from Bruno Lebrun to achieve the platform's ambition of growth and international leadership.

**The Board of Directors expressed its thanks to Bruno Lebrun**, who presided over the company from its inception. In this phase, GIREVE developed a scalable, efficient and reliable B2B service platform. The platform's value and relevance proved it to be a core player in the charging industry.

**Eric Plaquet spent most of his career developing high value-added services for companies all around the world**, notably in the automotive and EV industries. He implemented value creation strategies based on organic growth and M&A, in both international groups (PWC, LAGARDERE/MATRA, PININFARINA) and French Tech nuggets (Software, AI, Big Data).

**GIREVE is now a major player in the field of e-mobility roaming, and a reference on its market.** Propelled by encouraging European public policies, EV market development and a growing offer of services, GIREVE is entering a new phase of growth, accelerating its business and strengthening its leadership.

### ABOUT GIREVE

GIREVE is the roaming platform offering the best charging network coverage in Europe. It enables EV drivers to charge easily thanks to partnerships between e-mobility operators.

GIREVE acts as a technical, operational and contractual interface between a diversity of dissimilar systems.

GIREVE gathers more than 100,000 charging points in 25 countries. Its team is dedicated to offer the highest quality of service on the market, through flexible solutions that can easily adapt to meet partners' needs.
